Education

BACHELOR OF SOFTWARE ENGINEERING

Micollege, Male, Maldives

Expected Graduation: 2027 - Present

ADVANCED CERTIFICATE IN INFORMATION TECHNOLOGY

Polytechnic, Male, Maldives

January 2023 - December 2023

Experience

Aslu Tv (BROADCAST HOUSE Pvt Ltd)

Male', Maldives

On Air Operator - (25 January 2024 - 25 June 2025)

MCR Coordinator - (25 June 2025 - 14 April 2026)

25 January 2024 - 14 April 2026

- Manage on-air broadcast operations, ensuring smooth and seamless transitions between programs.
- Conduct live broadcasts while maintaining content quality and strict adherence to broadcast schedules.
- Perform video editing for TV programs using **Adobe Premiere Pro**, enhancing visual clarity and storytelling.
- Create motion graphics and visual effects using **Adobe After Effects**, increasing viewer engagement.
- Develop graphics for various TV shows, improving visual presentation and on-screen branding.
- Design, develop, and maintain **custom software solutions** for the operations room to streamline workflows, automate tasks, and improve efficiency for operators and TV show production teams.
- Provide **IT support and PC repair services** for newsroom and production staff, including hardware diagnostics, system upgrades, OS installation, and software troubleshooting.
- Troubleshoot and resolve technical issues on staff computers and broadcast-related systems, ensuring minimal downtime during live operations.
- Coordinate **Master Control Room (MCR)** activities to ensure reliable signal flow, media playout, and operational readiness.

- Troubleshoot and resolve technical issues on staff computers and broadcast-related systems, ensuring minimal downtime during live operations.
- Coordinate Master Control Room (MCR) activities to ensure reliable signal flow, media playout, and operational readiness.

SKILLS

- **Web Development:** Proficient in HTML, CSS (Tailwindcss, Bootstrap), JavaScript (including ES6+), nodejs (express, ejs, pug) and PHP.
- **Frontend Frameworks:** Experienced with Bootstrap and Tailwind CSS for responsive and modern UI design.
- **Backend Development:** Skilled in Node.js and PHP for developing server-side applications and APIs.
- **Programming Languages:** Strong understanding of C, C#, JavaScript, and PHP.
- **Databases:** Expertise in SQL with hands-on experience using MySQL and Microsoft SQL Server.
- **Database Design:** Ability to design, implement, and optimize relational databases.
- **Video Editing:** Proficient in **Adobe Premiere Pro** and **After Effects** for editing, motion graphics, and visual storytelling.
- **UI/UX Design:** Skilled in **Figma** for creating wireframes, prototypes, and user interface designs.
- **Graphics Design:** Experienced in developing visual assets for web and TV broadcast content (**Figma, PhotoShop**).
- **IT Support & Troubleshooting:** Strong understanding of computer systems, hardware repairs, software troubleshooting, and maintaining technical equipment to ensure smooth operations.
- **Full-Stack Application Development:** Experience building complete web applications from concept to deployment, including authentication, dashboards, admin panels, and real-time features.
- **Real-Time Systems:** Hands-on experience with **WebSockets** for live updates (e.g., live data sync)
- **API Development & Integration:** Skilled in designing and consuming **REST APIs**, handling JSON data, and integrating third-party services.
- **Custom Tools & Automation:** Developed desktop and web-based tools (e.g., video analysis utilities, text conversion tools, browser extensions) to solve real operational problems.
- **Browser Extension Development:** Built Chrome and Edge extensions with custom utilities, text processing, and search features.
- **Video & Broadcast Systems Knowledge:** Practical experience with TV broadcast workflows, playout systems, and media handling tools used in live television environments.

- **System Deployment & Hosting:** Experience deploying and managing **Node.js** applications on **VPS** environments using process managers such as **Forever** and **PM2**, with hands-on remote server administration.
- **PC Assembly & Repair:** Hands-on experience assembling, upgrading, diagnosing, and repairing desktop and laptop computers, including hardware replacement, OS installation, driver configuration, and performance troubleshooting.
- **Linux (Ubuntu):** Comfortable working in both **command-line (terminal)** and **desktop environments**, including system configuration, software installation, user management, and troubleshooting.
